"THE ULTIMATE GOAL SHOULD BE FOR EV'S TO BE THE DESIRED CHOICE OF THE CONSUMER"

To ensure this growth trajectory, there still needs to be improvements in a number of fundamental areas that remain challenging. The ultimate goal should be for EVs to be the desired choice of the consumer among choices including ICE vehicles. Critical progress in changing infrastructure, range, choice and cost remain key.

Starting from 19th November 2024, the EV India Expo 2024 will provide the platform for electric vehicle manufacturers & dealers to showcase their latest products, technology equipments, smart & Navigation, transport, electric cars, scooters, motorcycles, e-bikes, etc. It is an opportunity to meet & network with the industry as well as end users to explore new business opportunities. EV India Expo is the best public interactive platform for:

- Brand building in the industry and identifying new import & export destinations
- Support & seekers of latest products & technology
- Face to face interaction among leading national & international players
- To attract & transfer latest technology from the world over
- Highlighting the potential of electric vehicles in the international market
